NEW IBERIA KIWANIS CLUB - COMMITTEES 2006-2007

The real work in Kiwanis, is done at the committee level. Much of the success which our club achieves depends on how effective the chair is. Chairs have been assigned based on experience working with the committee. Wherever possible, we select a co-chair or active member of a committee from the prior year to move up to chair. In those cases in which the chair is not a member of the board, a board member has been appointed as the board representative to the committee to facilitate communications with the board.

Membership on any committee is inclusive, not exclusive. Some members may have been left out if they did not respond to the club survey. If a member has an interest in serving on a particular committee, he need only speak up and will be included.

Kiwanis International and the La.-Miss.-W.Tenn District publishes most of the information needed to administer a successful committee. It is not the purpose of this directory to duplicate that information, but a brief description of the activities is included for the information of the general membership.

The committee structure on the following pages is divided up into three categories:

- I Service Committees
 - II Club Committees
 - III Fund Raising Committees

2006-2007 PROGRAMS

The Program Committee is responsible for scheduling programs for the regular Thursday meetings. The Chair and Co-Chair are responsible for over all program quality for the year. They are supported each quarter by a quarterly coordinator who focuses on that quarter and always has an emergency program standing by "just in case". Note that the program schedule trails the administrative year by one month to allow the program committee a month to get up to top speed. Programs should be scheduled at least one month in advance, and notice given to the bulletin editor. Two club members are responsible for each program and they should be contacted by the quarterly coordinator well in advance of their scheduled program to make sure that a guest speaker will be provided for each meeting. If the guest requires equipment such as a slide projector or video player, and/or needs the windows shaded, these needs should be brought to the attention of the meetings committee. Good programs are the key to good meeting attendance. Please take this responsibility seriously.
